“Changing Lives” We Rise By Lifting Others

The fulfilling feeling of giving back and contributing to society is unparalleled. No one has ever become poor by sharing. It involves a certain amount of giving. It's not how much we give but how much love we put into giving.

As we grow older, we discover that we have two hands - one for helping ourselves and the other for helping others." We all come to the world with the joy of having things, but when we leave this world, we should have experienced the joy of contributing and giving back to the society. That is a mature joy, the real joy. There's nothing more rewarding than giving back and making a difference in the lives of the people in this great community.

Giving is not just about making a donation. It is about making a difference."

🌸 Tech School On Wheels Campaign - 21

📍 Beas Slums

SimbaQuartz is a company with not just a unique business model but also very different ideas and ways of philanthropy. We believe that financial constraints should not become a hurdle for a bright student. Every child in the slums also has the right to education and computer education should not remain a distant dream for them. To make it possible we send our office bus to the slums of Beas and our staff volunteers impart computer education to the school going children there. We have already picked a few of these children for FREE SimbaCourse and also provide them with bus fare from Beas . They too should grow up to be IT engineers and help their families overcome financial difficulties. Free education can prove better than any financial help. We shall continue to do this service regularly.
