## **"School on Wheels" Campaign - 8 Slums Beas Distt - Amritsar**

SimbaQuartz has made a special effort to teach computer skills to the kids living in the slums where we provide computer sessions for the kids riding in our company bus. The SQ team offered computer classes to the Beas slum youngsters who attend school in light of this program.

As these children equally deserve a great education, it is our goal and hopes to offer these facilities at our own level to children from economically disadvantaged homes. They ought to become IT engineers when they are adults to support their families financially. Free education can be more beneficial than any form of assistance.
